

Amadeus Sales & Catering – Delphi LMS Integration

Field Mapping Guide

The LMS Integration provides two way communication between Amadeus Sales & Catering – Delphi and the LMS property management system for the objects and fields outlined below. Not all fields are two way, and are communicated in the direction indicated. Default Delphi field labels are listed below, and may differ from property field labels depending upon customization.

¹Notes

- Blocked rooms are sent from LMS as a total value (per room type) and updated in Delphi based upon occupancy distribution of agreed rooms
- Picked Up rooms are updated in Delphi based upon occupancy sent from LMS
- Pickup Rate(s) will be updated in Delphi on a nightly basis, for in house groups, based upon guestroom revenue posted in LMS
- Posted revenue will be updated in Delphi on a nightly basis, for in house groups, based upon posted revenue categories configured in LMS

² Some fields are optional based upon the following property configuration options:

- Allow group cancellation in LMS to update Delphi Room Block to Block Cancelled
- Allow changes to LMS Cutoff Days to update Delphi room block Cutoff Date
- Delphi Rates may be used to create and update LMS Rate Strategy
- Delphi Booking Type may be used in place of Market Segment to populate LMS Group Type
- Delphi Catering Manager may be used in place of Service Manager to populate LMS C/S Mgr
- Delphi Booking Comments used to populate F11 Guest Services instead of F6 Group Text
